BIBLE SCHOOL SUBJECTS

Will Be The Interesting Features of To-
night's Program at the Chris-
tian Church.

At the Christian church tonight a meeting will be held which, from the general plan of the program gives evidence of being both helpful and interesting.

The hour spent in this, Wednesday evening service, will be devoted to Bible School matters.

It will be interesting and helpful to all those who teach in any of the city Bible Schools.

Not only will the reports of the various departments be given but a report of the School of Methods and of the lectures given in this school recently held in Lexington, will be given by the two who attended this school from this city.

Miss Dorothy Douglas will report the lectures on Elementary work, and Mrs. Fannie Davis will report the lecture on the Adult department and on the psychology feature in Bible School teaching.

This will be of interest to parents. A large attendance is expected.

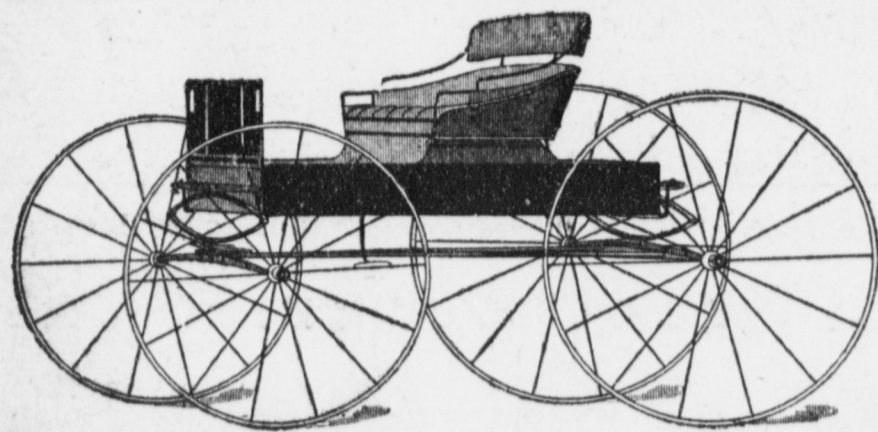

The pastor will have charge of the meeting and will augment the discussions if time permits. The meeting will last but one hour.

DEATH OF BURTON C. DAVIDSON.

Mr. Burton C. Davidson, died at his home in Newport, Sunday morning. Mr. Davidson left here in May. He formerly lived on Walnut street and was employed in the Ohio Valley Pulley works. He was also employed on the Cincinnati street car line.

He is survived by his wife and one son, Myron.
Funeral arrangements will be announced later.

THE PRESIDENT'S WIFE

Laid To Her Final Rest Yesterday In
Torrents of Rain—800 Relatives
Present.

Rome, Ga., Aug. 11.—Mrs. Woodrow Wilson, wife of the nation's President, was buried here today at Myrtle Hill cemetery. Rain in torrents while the casket was being lowered into the grave, which is beside those of Mrs. Wilson's father and mother, almost within sight of the house in which she lived as a girl. Tonight the President was speeding eastward on his return to Washington.

More than 800 relatives and friends of the Wilson and Axson families already were gathered in the little church which Mrs. Wilson used to attend and of which the Rev. Edward S. Axson was pastor there. The church was draped in black with interwoven leaves of white flowers. On one wall was a white marble tablet to the memory of Mrs. Wilson's father. Flowers were piled about the altar.

As the President entered, following the casket, Chopin's funeral march was played. The simple, short service was conducted by the Rev. G. G. Sygner, the local pastor. The President, his daughters, Secretary McAdoo and Mr. Sayre occupied the front pew.

French and German Battle Lines.

French and German troops are facing each other to the north of Verdun. There have been numerous clashes of a minor nature probably preliminary to an extensive engagement in the near future. The respective positions of the Germans and Belgians before Liege apparently are unchanged.

German forces are making careful reconnaissance in the district of Hesbaye which is believed to mean that Germany will take the offensive north of Liege. According to French reports the Germans have been unsuccessful in an attempt to drive the French from their position outside Mulhausen. The British war office says there is reason to believe the German cruisers Goeben and Breslau, for which British and French ships were waiting, have taken refuge in the Dardanelles.

Clashes between Austrians and Russians so far have been of minor importance. A Shanghai dispatch says 45,000 Japanese soldiers have embarked on transports and are awaiting orders. A Copenhagen dispatch announces that Russian mobilization will be complete on April 21.

A dispatch to the Exchange Telegraph Company from Paris says that the correspondent learns from a reliable source that the Russians have gained important victories over the Austrians, capturing many prisoners and war material. The scene of the battles is not disclosed.

Emperor William Tells the American Ambassador of the Capture of Liege.

Berlin, Germany, August 11.—Emperor William today received Jas. W. Gerard, the American ambassador, in the palace garden and conversed with him at length. The emperor appeared to be in a serious mood but confident. He spoke of the capture of Liege where, he said, the German and Belgium troops were about equal in number. The Belgians were put to flight abandoning their arms in great numbers, he declared.

The German and British governments have requested the American embassy to intervene with the purpose of fixing a time for the merchantmen of the two countries to quit the ports of hostile countries.

Tuesday morning all Americans desiring to depart for the United States were called to the embassy to be enrolled.

German Airship Flying Over Namur Is Brought Down By Fire of The Belgians.

Brussels, Belgium, via London, Aug. 12, 1:55 a. m.—The newspapers here announce that a German airship flying over Namur was brought down by the fire of the forts and that two officers in the machine, uninjured by the fall, were taken prisoners.

Six thousand German troops, it is reported, seized the station of London, west of Liege, and stopped a train from Brussels. They permitted the passengers to go but destroyed the station, removed the rails and drove out the employees of the railroad.

Austrians Have Entered Alsace and Ports at Liege Still Held By Belgians.

London, England, Aug. 11.—The Admiralty and war office information bureau gave out the following:

"There is good reason to believe that the German cruisers Breslau and Goeben have taken refuge in the Dardanelles and will be dealt with according to the international usage.

German Invaders are Moving Upon Waterloo and Brussels.

Brussels, August 11.—The German invading army is moving toward Waterloo and Brussels, but so far has failed to penetrate Belgian territory west of Tongres, where two divisions of cavalry with supporting infantry and artillery are operating.

A MISTATEMENT

Say Auto Bus Drivers As To The Charge
of "Observer" That Many Drunk-
en Men Ride in Their Vehicles.

We the undersigned, persons engaged in the running of auto busses to and from Maysville, and the surrounding towns, wish to correct a very erroneous and damaging statement which appeared in the issue of The Public Ledger of August 10th, over nom de plume, "Observer." The statement as published is this:

"The auto busses that run to various points are so often filled with drunken men that ladies have almost ceased to ride in them."
This statement is absolutely false and without foundation. In our experience, covering all nearby points, for the past two years, it is a rule that we carry many more ladies than men, and it is absolutely false that we every carry men who are noticeably under the influence of liquor. In fact, we would not carry a person who was under the influence of liquor, but it is our experience that not once in a month is there a person under the influence of liquor who makes an application to ride with us.

It is very seldom on the trips that we have as many men passengers as women passengers, and we carry as passengers, many of the best ladies in the county, and we have never yet heard a lady complain of any unbecoming conduct of the men passengers. Fully 75 per cent of our passengers are ladies.

We wish to give all possible publicity to this statement, and we invite the public to observe the kind and class of passengers that we carry, as we do not wish our business put in a false light by the wild and unfounded statements of irresponsible agitators.

DROUTH BROKEN

In All Parts of Kentucky—Heavy Rains
Make The Farmers Rejoice and
Boost the Crops.

The rain yesterday was almost continuous and soaking in its intensity and filled the long felt want.

Corn and tobacco and the pastures and stock have taken on new life and there is now a satisfactory outlook on the farms.

Reports from all parts of the State indicate that the drouth which has prevailed for the past few months has been broken.

Nearly all over Kentucky crops were drying up and much damage had been done by the dry weather, while in some sections water was becoming scarce and farmers were forced to drive their stock many miles to drink.

In parts of the State drinking water for the people was also scarce, but the rain which fell yesterday, last night and today has been a life-saver for the entire State.

In many parts of the State the rain began Sunday, but the heavy downpour last night extended from one end of the Commonwealth to the other.

Late corn is revived but in many cases vegetation had been injured beyond redemption.

Papan is ready to declare war on Germany.

Peace seems assured in Mexico and the banks reopen.

WHY SHOULD A DOCTOR

BE DIVORCE EXPERT?

A divorce suit is on in Chicago and doctors have been called to testify as experts concerning the compatibility of the pair. This may be all right so long as physicians steer clear of the metaphysical phases of the conjugal relation, but when one of them volunteers the information that "idle men are more loving than busy ones," he loses his status as a man of science without gaining prestige as a person of observation.

There is no reason in the wide world why a doctor should know any more than the rest of us concerning the relative fervor of an idler's and a "hustler's" love. Conclusions can be drawn from daily experience only, and one person with eyes is quite as much of an expert as another.

As a matter of truth, so far as every-day experience teaches anything, it teaches that the busy man's affection sounds depths unknown to the idler. It is the busy man in every station who provides the home and supplies the necessities of life; it is the busy man who is content to spend sweltering months in the city, when his wife and children are enjoying themselves in the mountains or at the seashore. Indeed, there is reason to believe that a man whose affections extend further than the gratification of a passing fancy would never rest satisfied in a non-producing capacity. His very affections would stimulate his ambition and stir him to renewed activities.

However, love is not an exact science, and the doctors of medicine may know as much about it as anybody; the certainty is that they know no more.—Ex.

"BREVITY IS THE SOUL OF WIT"

For brevity in a mining report, we commend the following as a result of three weeks' work: "I don't believe anybody will ever be guilty of stealing a ride out of that place on an ore train."—Engineering and Mining Journal.

"What's the answer?"

"POORLY PAID" ON JOY TRIP.

It is estimated that a thousand New York public school teachers are now abroad, a fact that indicates a certain amount of luxury among a "poorly paid class."—Times-Star.

The following item will be of particular interest to Western corn growers: A cargo of 100,000 bushels of Argentine corn has arrived at Boston. The price at which it is offered is 75 cents a bushel, which is six cents under the market price of Western corn.

New England has suffered a loss of more than \$200,000,000 as a result of the recent attack upon its railroads, according to the report on the work of the New England railroad conference submitted by the two Vermont members to the Governor of that State.

"Passionsfestspielpenkrauterklöstterdelicatessen-stucksaese" is the name of a new cheese. This may be all right for a new cheese, but just suppose some grease maker took it into his poll to wish such a name on his product. Oh, Limburger!—Power.

The New York Tribune says that it is not patriotism but cowardice which keeps Congress in session.

The "Greatest War" also bears the label: "Made in Germany."

THE MONROE DOCTRINE.

Major Gen. Leonard Wood rises to observe that the European complications demonstrate conclusively that the United States needs a much bigger army.

Why? We have been told for years that the existence of the great standing armies of Europe made for peace; that, when one nation increased its army, the others did the same, thus maintaining a balance of military power that made war impossible. All of this theorizing has been swept away. These great armies have been kept up to fight.

The United States can never be invaded by any nation that cannot wreat from us the command of the sea. If Gen. Wood's theory is correct that the European troubles show that this country should be better to protect itself, the logic of the situation is that we should spend more money for ships of war rather than for infantry and cavalry regiments that could not be used.

Let us be thankful, however, for our one great protection from those troubles that are now harassing Europe, namely the Monroe Doctrine. If it had not been for the Monroe Doctrine, which Mr. Waterson would have us abandon, half the nations of Europe would have large possessions in South America and would be bound by treaties to stand beside every little Central or South American State that might want to embroil itself with the United States.

It has taken such a cataclysm as now threatens Europe to show the enormous services the Monroe Doctrine has rendered to America and to the cause of world-wide peace.—Louisville Post.

FOOLISH PHILOSOPHY.

When Might and Right dissolve partnership, peace becomes unpopular.

When it comes to wild oats, the black sheep he eats them up.

What we don't understand is how the wolf in sheep's clothing can stand the heat.

When the audience melts away it is a sign that the orator cuts no ice.

It has just about gotten so in this county that a girl considers a man underbred if he stares at what he sees.

Yes, Cordelia, it's the honeymoon that affects the tide.

The great objection to a theory is that it is apt to strike a practical snag.

THE DAILY NOVELETTE.

The Return of the Prodigal.

Avant the wife who does but wait
Until poor hubby comes home late;
Then throws a pan, a brick or plate,
And leaves him to—ah, such is Fate!

The shades of night were falling as fast as usual, but still Hamsworth Giggshandle had not returned home.

"Something has happened to him, I know it, I know it!" moaned Mrs. Giggshandle. Hysterically wiping the apprehensive moisture from her brow with the hem of her \$500 Dillworth tango gown, she went on frantically. "Oh, he's been held up, or knocked down, or something. I know it! Oh, why was I ever mean to him? Why did speak so crossly to him at breakfast this morning and all those other mornings? He's the best husband that ever breathed, and now he's dead, dead, dead!"

Rushing to the window, she looked out fearfully into the darkness, crying, "Oh, Hamsworth, come home! Only come home safe and sound and I'll swear never to speak another cross word to you, never, never, never do anything but what I know will please you, devote my whole life to your comfort! Only, come home any way but dead!"

As if in answer to her prayer the door behind her opened and her husband stepped into the room.

"Train was late," he announced. "What's to eat?"

She turned burning eyes upon him.

"Nothing, you heartless wretch! Do you think you can scare me half to death and then expect to get supper for it? If you want anything to eat you'll go down in the kitchen and cook it yourself!"

Which, with a heavy sigh, Hamsworth did.—Louisville Times.

KAISER THIRTEEN YEARS AGO PROPHESIED BIG EUROPEAN WAR.

"We will be everywhere victorious even if we are surrounded by enemies on all sides and even if we have to fight superior numbers, for our most powerful ally is God above, who, since the time of the Great Elector and Great King, has always been on our side."—At Berlin, March 29, 1901.

"I vowed never to strike for worldly mastery. The world empire that I then dreamed of was to create for the German empire on all sides the most absolute confidence as a quiet, honest and peaceable neighbor. I have vowed that if ever the time came when history should speak of a German world power or a Hohenzollern world power this should not be based on conquest, but come through a mutual striving of nations after a common purpose.

"After much has been done internally in a military way, the next thing must be the arming ourselves at sea. Every German battleship is a new guarantee for the peace of the world. We are the salt of the earth, but must prove worthy of being so. Therefore our youth must learn to deny what is not good for them.

"With all my heart I hope that gold and peace will continue to be present for us."—At Bremen, March 22, 1905.

"My first and last care is my fighting forces on land and sea. May God grant that war may not come, but should the cloud descend, I am firmly convinced that the army will acquit itself as it did so nobly thirty-five years ago."—At Berlin, February 25, 1906.

Practically complete returns from Tuesday's primary in Oklahoma indicate the nomination of Robert L. Williams over J. B. A. Robertson for Governor on the Democratic ticket.

Three Kentuckians have been elected as directors of their respective reserve banks. The Federal Reserve Board organized and the whole system will be in operation within a few weeks.

Developments in the financial world were given a more cheerful tone by an encouraging idle car situation and the unfilled tonnage report of the United States Steel Corporation.

Americans in Europe are showing less desire to return home since the treasure cruisers started across the Atlantic and the banks began advancing money on demand.

Kentuckians are besieging the members of the State delegation in Congress to aid in finding their friends and relatives abroad. All possible assistance is being given.

STRAIGHTFOR-

WARD TESTIMONY

Many Maysville Citizens Have Profited By It.

If you have backache, urinary troubles, days of dizziness, headaches or nervousness, strike at the seat of the trouble. These are often the symptoms of weak kidneys and there is grave danger in delay. Doan's Kidney Pills are especially prepared for kidney ailments — are endorsed by over 30,000 people. Your neighbors recommend this remedy—have proved its merit in many tests. Maysville readers should take fresh courage in the straightforward testimony of a Maysville citizen.

Henry Gallenstein, blacksmith, Poplar St., Maysville, Ky., says: "Doan's Kidney Pills are the best of kidney remedies. I have used different kinds and no other has ever equaled this one. When my kidneys were out of order and I had pain in my back, I heard of Doan's Kidney Pills and used them. They stopped the pains and my kidneys became strong. The cure has been permanent."

Mr. Gallenstein is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—If your kidneys bother you don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. Gallenstein had—the remedy backed by home testimony. 50c. all stores. MARTIN SHERIDAN
Famous all-around athlete and Olympic Games champion, says:
"Tuxedo is a strong card with me. I advise all athletes to stick to Tuxedo. It is the one tobacco that will help them keep them in trim, prevent them from going stale. Tuxedo leads—bar none."

GASTON STROBINO
Champion Marathon runner; hero of Olympic Games at Stockholm, says:
"Tuxedo is the tobacco for the athlete. It never hurts my wind, and always steadies my nerves. Tuxedo for me."

MATT McGRATH
Champion weight thrower; winner at Olympic Games, Stockholm, says:
"No athlete need fear to smoke as much as he wants, if he uses Tuxedo. It's a general help to any man. A pipeful of Tuxedo puts new life into me."

Our Leading Athletes

Join with other famous Americans in Praising Tuxedo Tobacco

OUR world-famous athletes—the men who triumphed for America at the Olympic Games in Stockholm—are among the thousands who declare that Tuxedo is not only extremely enjoyable, but beneficial.

Famous Americans in every walk of life—doctors, lawyers, actors, singers, public speakers, statesmen, business leaders—smoke and endorse

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

Tuxedo grew rapidly in public favor without advertising; its natural growth reached the stupendous total of fifty or sixty million packages a year. Not until the past few months has it been possible to keep up with the demand for Tuxedo. Now increased facilities make it possible for every man to smoke this best of tobaccos.

Tuxedo is fine, ripened Burley tobacco of the highest grade—aged until thoroughly mild and mellow. Then treated by the famous "Tuxedo Process," that removes the last trace of "bite" and develops all the delicious Burley fragrance and flavor. Pure, mild, delightful Tuxedo is absolutely non-biting—try it.

THE AMERICAN TOBACCO COMPANY

HOW THE BIG TRUSTS ARE AFFECTED

They Can Buy Their Labor in Cheap Markets and Dump Its Products On This Country.

(Indiana State Journal.)

During the course of the crusade against the Protective Tariff law repealed last October, the claim was frequently made that the Steel Trust had been favored in its schedule, and that, in fact, the United States Steel Corporation and similar organizations were active in dictating the provisions of the measure. The facts did not matter; the people were made to believe this. The truth is that Mr. Carnegie has long been reflecting the opinion of the Steel Trust in his declarations for Tariff "reform." The Steel Trust has become international—it would like to buy and manufacture in the cheapest labor and material markets of the world, knowing that it is strong enough to protect itself by agreements and the other weapons of monopoly against competition in the American market.

The prediction was made by Protectionists that the repeal of the steel Tariff would be a matter of fact benefit the Steel Trust ultimately, because it would thereby be enabled to retain this market and at the same time erect plants in the cheap labor, cheap raw material markets of Europe and the Orient. The trust, it was said—and this is being proved—would be benefited by the injury inflicted upon its independent competitors in the United States and the impossibility of their withstanding the competition of the foreign producer. These predictions are working out. Unquestionably the Steel Trust magnates have been surprised by the effect the blow struck at the general prosperity of the country by the new Tariff law has had upon their business.

But big business is at this moment fulfilling the predictions of Protectionists by preparing to establish plant abroad. The Standard Oil Company group recently made an investment of many millions in the oil fields and industries of China. It is now stated that the Bethlehem Steel Company, of which Charles M. Schwab is the moving spirit, has arranged to lend thirty million dollars to the Chinese Government for the erection of a naval dock and defenses at Shanghai. This is taken to overshadow the establishment of steel plants in China by this American corporation. Hankow already has one of the largest steel plants in the world, with iron, coal and water carriage all grouped in one spot, and labor at from 5 to 12 cents a day. Nagasaki has the second largest steel mill in the world, also operated under a wage scale that would not keep an American household in milk and butter. An immense steel mill is being erected in the Ganges basin in India has untold millions of people willing to work for a few cents a day. With free access to American markets for the finished output of such mills why should the United States Steel Corporation worry about high costs of production in the United States? It can close its plants in the United States and manufacture with coolie labor. And this is the sort of thing our Government is engaged in encouraging.

SEALED BOTTLE

Cast Into Flood at Portsmouth, Ohio Picked Up On English Coast.

Portsmouth, Ohio.—At the time of the disastrous flood of the spring of 1913, when the waters of the Ohio River stood six feet in her home, Mrs. Samuel Horchow, wife of a furniture dealer here, tossed a sealed bottle, containing a poem of her own composition into the swollen waters from her second-story window.

She received a letter from John Collins, of Kent, England, a longshoreman telling her that he had picked up the bottle when fishing along the English Coast, near his home, a few weeks ago. To reach its destination the bottle must have floated down the Ohio and Mississippi rivers into the Gulf of Mexico and followed the Gulf stream across the ocean to the English coast.

Read D. Hochinger & Co.'s ad. The prices they are offering to close on their spring suits are certainly very tempting.

CONGENIAL WORK

And Strength to Perform It.

A person in good health is likely to have a genial disposition, ambition, and enjoy work.

On the other hand, if the digestive organs have been upset by wrong food work becomes drudgery.

"Until recently," writes a Washington girl, "I was a railroad stenographer, which means full work every day."

"Like many other girls alone in a large city, I lived at a boarding house. For breakfast it was mush, greasy meat, soggy cakes, black coffee, etc."

"After a few months of this diet I used to feel sleepy and heavy in the mornings. My work seemed a terrible effort, and I thought the work was to blame—too arduous."

"At home I had heard my father speak of a young fellow who went long distances in the cold on Grape-Nuts and cream and nothing more for breakfast."

"I concluded if it would tide him over a morning's heavy work, it might help me, so on my way home one night I bought a package and next morning I had Grape-Nuts and milk for breakfast."

"I stuck to Grape-Nuts, and in less than two weeks I noticed improvement. I remember I used to walk the 12 blocks to business and knew how good it was simply to live."

"As to my work—well, did you ever feel the delight of having congenial work and the strength to perform it? That's how I felt. I truly believe there's life and vigor in every grain of Grape-Nuts."

WOMAN WOULD NOT GIVE UP

WOMAN WOULD NOT GIVE UP

Though Sick and Suffering; A Last Found Help in Lydia E. Pinkham's Vegetable Compound.

Richmond, Pa.—"When I started taking Lydia E. Pinkham's Vegetable Compound I was in a dreadfully rundown state of health, had internal troubles, and was so extremely nervous and prostrated that I had given in to my feelings I would have been in bed. As it was I had hardly strength at times to be on my feet and what I did do was by a great effort. I could not sleep at night and of course felt very bad in the morning, and had a steady headache."

"After taking the second bottle I noticed that the headache was not so bad, I rested better, and my nerves were stronger. I continued its use until it made a new woman of me, and now I can hardly realize that I am able to do so much as I do. Whenever I know any woman in need of a good medicine I highly praise Lydia E. Pinkham's Vegetable Compound."—Mrs. FRANK CLARK, 3146 N. Tulip St., Richmond, Pa.

Returns in From 100 Counties, Beckham in by 1,596, Wilson 2,636

Frankfort, Ky., August 10.—Official district returns from an even 100 of the 120 counties in Kentucky give Beckham a plurality of 1,596 over Stanley in the State primary for the Democratic nomination for United States Senator and give Wilson 2,636 plurality over Ernst. Camden, Democrat, for the short term, and Bullitt, Republican won by immense majorities.

The majority of 695 he received in Jefferson county over Jolly probably will nominate Burton Vance as Progressive candidate over George W. Jolly, giving him a majority in the 100 counties of 945 out of a total vote of only 2,357. Considerably more than half the total vote of the Progressives was polled in Louisville.

Five counties in the Eleventh district give Herd 56 and Creech 34 for the Republican nomination for Congress. Glenn Ireland defeated George Osborne for the Republican nomination for Congress by over 1,000 in the Ninth

W. Sherman Ball had a majority of nearly 900 over both his opponents for the Republican nomination in the Fourth district.

The official vote so far received makes no changes in the majorities of Democratic candidates for Congressional nominations.

The following table gives the vote for candidates for Senator by Congressional districts:

	Beckham	Stanley	Wilson	Ernst
First	6,468	5,103	1,092	598
Second	5,438	11,683	2,273	539
Third	7,596	4,143	2,079	609
Fourth	7,619	5,727	1,679	1,410

RALLY FOR GOOD ROADS

Judge Rice Issues Call to Boost Road Proposition in Mason County.

There will be a "Good Roads" mass meeting at the courthouse Saturday morning at 10 a. m. Let all interested citizens be present.

JUDGE W. H. RICE, Chairman.

The good roads movement is sweeping over the nation.

Mason county, with her fine farms should not be one of the backward counties. In fact, she should be the leader in this movement.

Sixteen years ago when the county took over the turnpikes, the same number of men were employed as today, yet everything has advanced in cost of living and the county is still trying to run the roads for the same money.

Our system needs revising and shaping up. Let this meeting be a hummer. Don't come with your hammer but come a booster.

THE SADDEST JOURNEY FOR PRESIDENT WILSON.

Washington, August 10.—Woodrow Wilson, President of the United States, was making the saddest journey of his life tonight. In a special train bearing the body of Mrs. Wilson to his final resting place beside the graves of her father and mother, he was on the way to Rome, Ga., surrounded by his daughters and a few members of his own and his wife's families.

Among the flowers at the White House were many elaborate designs. Washington florists were called upon as never before. Orders came by cable and telegraph from every part of the world. Scarcely a capital of the world or a city of the United States was unrepresented.

Church Bells Told.

Manassas, Va., August 10.—Virginia towns tolled their church bells and silent, sympathetic crowds gathered at many of the railroad stations tonight as the special train bearing President Wilson and his dead wife passed southward. The President was sitting beside the casket as the train left Washington and he stayed there until late in the evening.

The train is due at Rome, Ga., where Mrs. Wilson's body is to be buried tomorrow afternoon at 2:30 o'clock.

ANOTHER FINE RAIN LAST NIGHT

This section was again blessed by a copious rain last night and this morning and the dust and dryness has given way to moisture which is a Godsend to the farmers and crops and stock.

PAIGE

Model Cleared "36"—Electric lighting and starting—\$1275
Model Brunswick "25"—5 passenger—Electric lighting and starting—\$975

But it has given the Paige a positively dominant position among cars of medium price—

Ample capital for operating purposes—no bonded indebtedness—no excessive capitalization—no heavy overhead of any kind to be paid for.

Just a full dollar of car value for every dollar of the selling price.

Is it any wonder that the Paige is going to be oversold again this year in spite of increased production?
